

Squash Bucklers

Health and Safety statement

I acknowledge that squash is a fast-paced sport involving inherent risks, including but not limited to serious eye injury caused by impact from a squash ball or racquet.

I understand that wearing approved protective sports eyewear significantly reduces the risk of eye injury and that **Squash Bucklers strongly recommends the use of protective eyewear at all times while playing.**

I acknowledge that if I choose not to wear protective eyewear, I do so voluntarily and accept responsibility for that decision.

I understand that, under New Zealand law, personal injury is generally covered by the Accident Compensation Corporation (ACC), and that I am not entitled to sue Squash Bucklers for personal injury covered by ACC, except where permitted by law.

I agree that Squash Bucklers, its organisers, volunteers, and affiliated venues are not responsible for injuries arising from my participation in squash activities, except where liability cannot be excluded under New Zealand law.
